MIDTERM TEST (Week#6) 30%

PERSONAL BIO - TEST ASSIGNMENT (HTML & CSS)

Topic: "Personal Bio" Web site

Purpose: **You are creating a bio of yourself in the form of multiple HTML pages.**
The purpose is to provide your instructors with 'Actual/True' information about yourself.
This is your opportunity to share some information about yourself.

Note: Only share information you a comfortable sharing.

Format: Your bio must be in the form of multiple **web pages**.

A link to an external CSS page is also required.

There are no starter files provided for this midterm. You need to open your text editor and create a new blank html page.

Name and save the FOLDER containing your files as **YourFullName_midterm**. For example, if your name was Bob Smith, your working folder would be named BobSmith_midterm.

Create a blank css page. Name and save it as **myStyles.css.**

You must create a minimum of two html web pages.
  One should be your index page. Please name this your **initials_index.html**
     i.e.   Jenny Shaw's index page would be named   js_index.html
  The second page should also start with your initials followed by a name of your choice.
     i.e.   js_vacations.html   or   js_hobbies.html
  The web pages that you create must be linked (hypertext links).

Add the content listed below to the web pages and structure it appropriately using html5.

Content: (Minimum requirements)
- **Start with your index page named** YourInitials_index.html   i.e. **js_index,html**
- **Header –** include a header section at the top of your index page, containing your first and last name.
- **Opening paragraph** - a brief introduction of yourself (i.e. I live in {city} in the province of {province} in {Name of Country}. I have two brothers....)
- **Educational section** - where did you attend high school .... any post-secondary education
- **Work Experience –** list any previous work experience here!
- **Hobbies / Clubs / Activities / Interests**
      - It is recommended that you make this your second web page.
            Named YourInitials_hobbies.html
- **Travel - list any places you have visited or traveled to.**
     Note: You may create this page as your second (or if you wish) a third page on your site.
- **List at least 3 things about yourself that you think are interesting**
        (i.e. I love Peanut Butter. I eat a jar per week. / My favorite food is ...
            / I caught a 48 inch Musky … / I watch a lot of movies …)
- **Why I choose this program?**

- If you could meet one person on this planet, who would it be and why!

- Add a footer to each web page with Copyright 2021 – St Clair College – where the words St Clair College are a link to the St Clair College website (https://www.stclaircollege.ca). Include your full name and student number in the Footer.

Here are the additional HTML requirements that you need to add:

HTML Requirements (Minimum)
- One image (reduced in size .... use Photoshop if needed); A photo of yourself.
  Note: You my include more images … remember to reduce the size of each image used.
- Two pages (must include a link to a second page). More than two pages (optional).
- One main header element, containing Your Name   (i.e. \<h1\>)
- Additional section header elements (i.e. \<h2\> or \<h3\>)
- Enclose text in paragraph tags
- One list (Unordered, Ordered or Definition List) – your choice
- A Header and Footer section
- Make use of COLOUR. – This should be done in CSS (See the CSS requirements below).

Now you need to style your page. Here are the style requirements that you need to add.

NOTE - some of these styles require specific values (for example you must make your bullets in your list as squares) and others provide no values (use two different colours). When no values are provided, you are free to choose whatever values you see fit to use that still meet the requirements of that step.

CSS Requirements (Minimum)
- Make use of two (2) different colours, using the method of your choice.

- Change the bullet type on the list of your interesting things to a **square**

- Change the font to a **bold** font for **just the last item** in your list of interesting things. **Only bold the last item**

- Style the footer.

- On the index page, create a link around the text RETURN TO TOP. When this text is clicked, control should return to the top of the page. Use an id attribute for this internal link.

Save your files (.html .css and images) in a folder and .ZIP that folder as YOURNAME_midterm.ZIP

For example, if you name was Justin Trudeau, your folder would be justinTrudeau_midterm.zip
  Note: Must be saved as a .zip (no .rar or other compressed formats accepted)

Upload your assignment .ZIP file to the instructor using this Blackboard assignment UPLOAD option (The submission Point)
